Lite Strawberry Fruit ‘N Sauce is prepared from a blend of sound processing varieties of apples. The fresh apples are washed, inspected, peeled and cored, inspected again, and chopped. The chopped apples and strawberry puree acid are then mixed with water and cooked in a continuous operation. The cooked apple pulp is passed through a stainless steel screen to give grainy finish to the sauce and then is blended with the sucralose. The color and natural flavors are added and the hot sauce is filled into 4 oz. plastic containers, sealed, and quickly cooled.
