**DOCUMENTATION FOR ADM PRODUCTS  
USED AS ALTERNATE PROTEIN PRODUCTS (APP)  
FOR CHILD NUTRITION PROGRAM**

- a) ADM certifies that this product meets all requirements for APP intended for use in finished CN products as described in Appendix A of 7 CFR 210, 220, 225, and 226.
- b) ADM certifies that this product has been processed so that some portion of the non-protein constituents has been removed by fractionating. This product is produced from soybeans by removing the majority of the soybean oil and some of the other non protein constituents.
- c) The PDCAAS score for this product is .99. It was calculated by multiplying the lowest uncorrected amino acid score by true protein digestibility as described in the Protein Quality Evaluation Report from the Joint Expert Consultation of the Food and Agriculture Organization/ World Health Organization of the United Nations, presented December 4-8, 1989 in Rome, Italy.
- d) The protein level by weight of this product is at least 18% when hydrated at a ratio of 2.6 parts water to one part product.
- e) The protein level of this product is certified to be at least 64.8% on an “as is” basis as purchased.

This certification applies to the ingredient product as supplied by ADM and is valid 1 year from certification. The meat/meat alternate credit for products used in CN Programs should be calculated using the correct as-is protein value for the respective APP ingredient. If multiple APP ingredients are used in the formulation of a CN product, then each APP ingredient should be calculated separately to determine the oz. meat alternate provided. Additional information is available from ADM to assist you with this calculation
