Re: 1.02 oz (29g) Chortles® Whole Grain-All Natural Mini-Mini® Chocolate Graham Crackers

To Whom It May Concern,

We have completed our analysis of your Chortles products.

The USDA defines a Whole Grain-Rich product as containing 100-percent whole grain or containing a blend of whole grain meal and/or flour and enriched meal and/of flour of which at least 50-percent is whole grain and the remaining grain must be enriched.

Chortles contain significant amounts of Whole Grain Wheat and Enriched Wheat Flour. The results of our analysis of your formulations indicate:

1.02 oz (29g) Chortles® Whole Grain-All Natural Mini-Mini® Chocolate Graham Crackers

This product formula contains 50.2% Whole Grain-Rich Flours of which 52% is Whole Grain Wheat and 48% Enriched Wheat Flour. Their serving size of 1.02 ounce (29g) provides 16.02g Creditable Grains, which exceeds the required minimum of 16 grams and is also the equivalent of 1.09 Bread/Bread Alternate servings.
