

May 30, 2014

Using the guidelines provided in the Child Nutrition Labeling for Meat and Poultry, the following statement provides the Meat Equivalent amounts for the indicated product/s.

Please note that these products are not produced or labeled as Child Nutrition products and this letter does not constitute a Child Nutrition claim. These products are not produced within the partial Quality Control program requirements as mandated by the AMS and do not meet the requirements for Child Nutrition labeling.

This data is provided for information purposes only.

Item Description	CN Meat Equivalent
45300 29691 – Fully Cooked Sliced Bacon	Bacon has a high salt and fat content. It does not have creditable component towards the CN labeling pattern requirements per the Food Buying Guide.
