<sup>1</sup>Total Creditable Amount must be rounded **down** to the nearest 1/8 Cup (0.432 would round down to 0.375 or 3/8 cup VFJ). Do **not** round up. **(Reminder: Total creditable amount cannot count for more than the total weight of product)**

In order to be creditable, a juice must contain a minimum of 50% full-strength juice and then, only the full-strength juice portion may be counted to meet the VFJ requirement. If less than full strength juice is used, the volume of liquid must be adjusted and credited based on a full strength equivalency. As of November 24, 1997, policy is revised to require that all fruit-juices must be pasteurized. Some kinds of juice and cider have not been pasteurized. Frozen fruit bars must state the amount of 100% fruit juice is contained in each serving. Cooked dried beans or peas may be counted either as a VFJ or as a MMA but not as both in the same meat or food item. Vegetables and fruits are credited as served. In order to count for crediting purposes, a minimum of 1/8 cup VFJ per serving is required. Breaded vegetables must list the amount of VFJ and GB per serving separately.
