**Formulation Statement for Documenting Grains in School Meals**  
**Required Beginning SY 2013-2014**  
*(Crediting Standards Based on Grams of Creditable Grains)*

School Food Authorities (SFAs) should include a copy of the label from the purchased product package in addition to the following information on letterhead signed by an official company representative. Grain products may be credited based on previous standards through SY 2012-2013. The new crediting standards for grains (as outlined in Policy Memorandum SP 30-2012) must be used beginning SY 2013-2014. SFAs have the option to choose the crediting method that best fits the specific needs of the menu planner.

### Buy American Certification

Schools and institutions participating in the National School Lunch Program and the School Breakfast Program in the contiguous United States are required by law to use school food service funds, to the maximum extent practicable, to buy domestic commodities or products for meals served under these programs. A "domestic commodity or product" is defined as one that is either produced in the United States or is processed in the United States *substantially* using agricultural commodities that are produced in the United States. The term "substantially" means that over 51 percent of the final product consists of agricultural commodities that were grown domestically. Therefore, when school food service funds are used to acquire foods, schools and institutions must ensure that the items are in compliance with this requirement.

(USDA, FNS PA-1331, revised 11/2001)

**We certify that our 32XX WGR, Whole Grain Thaw & Serve Cookie, 1.3 oz,  
is produced in the United States and has at least 93% U.S. content**
