### PRODUCT DESCRIPTION

- Cream cheese is a soft, mild-tasting cheese made from milk and cream. This cream cheese blends fresh, Grade A milk and cream to create a smooth and creamy dairy product. A full-fat texture and consistency lends itself to creating signature cheesecakes, frosting, dips and a variety of other applications.
- The cheese's loaf format allows flexible serving and preparation options.
- Cream cheese is often used in baking and to thicken sauces and add creaminess. Cheesecakes are made with cream cheese as the main ingredient. It is used with or in place of butter in recipes when making cakes and cookies.
- Offer cream cheese with bagels or toast. Spread celery with cream cheese and offer as an appetizer on snack.
