

Crediting Standards Based on Grams of Creditable Grains)

School Food Authorities (SFAs) should include a copy of the label from the purchased product package in addition to the following information on letterhead signed by an official company representative. Grain products may be credited based on previous standards through SY 2012-2013. The new crediting standards for grains (as outlined in Policy Memorandum SP 30-2012) must be used beginning SY 2013-2014. SFAs have the option to choose the crediting method that best fits the specific needs of the menu planner.

Product Name: Super Star Mini D	Code No.: <u>9300</u>	Code No.: <u>9300</u>			
Manufacturer: Super Bakery		Serving Size 3 oz	Serving Size 3 oz / 85g (raw dough weight may be used to calculate creditable grain amount)		
I. Does the product meet the W (Refer to SP 30-2012 Grain Require				rogram.)	
II. Does the product contain non- (Products with more than 0.24 oz grains may not credit towards the	equivalent or 3.99 grams	for Groups A-G or 6.99 g			
III. Use Policy Memorandum S Breakfast Program: Exhibit A to Groups A-G, Group H or Group creditable grains. Groups A-G us creditable grain per oz eq; and Gr Indicate to which Exhibit A Gro	o determine if the product I. (Different methodology to the standard of 16grams oup I is reported by volun	ct fits into ies are applied to calcula s creditable grain per oz e ne or weight.)	te servings of grain co	omponent based on
